ACMI #100 was formulated for rubber stamp marking plastics, metals, glass, film, foil and other nonporous substrates from a stamp pad. #100 is also used for bottom coding on aerosol containers and small plastic, glass and metal non-aerosol containers. It is used to price all frozen food packages. This ink dries fast and is able to print through moisture.

SPECIFICATIONS:

Applications: Rubber stamp with cloth covered felt stamp pad, stick stamp, band stamper, air sprayer, roll coder, flexographic printer, and inline high speed automatic machine for bottom coding.

Viscosity: 15 cps (#100H is a higher viscosity #100)

Specific Gravity: 0.98 - 1.07

Weight per Gallon: 8.17 - 8.92 lbs.

Flashpoint: 46° F. - 74° F. depending on color

Dry Time: 7-10 seconds

Shelf Life & Storage: Use within 1 year is recommended. Ink should be stored at normal room temperature and capped tightly after each use.

Chemical Base: Solvent

Colorant Base: Dye
